ACKNOWLEDGEMENTS

Work on the Directory was initiated in the latter part of 1983 by Development Services secretary, Phyllis Stein, who compiled the form letters and mailed them to existing libraries for updating of the previous publication. Phyllis also surveyed new libraries, then typed changes and new entries from the data received. She also compiled the final copy.

The subject index was prepared by Brenda Norquay, a temporary Consultant at Public Library Services.

Debra Genik, Administrative Assistant, and Phyllis combined the indexes and Debra proofread the final copy.

Many thanks to everyone who took the time to complete the survey or update their previous entry.

Any discrepancies or suggestions for changes in the next issue will be gratefully accepted by the Branch. As well, notification of additions or deletions should be directed to:

INTRODUCTION

This fifth edition of the *Directory of Libraries in Manitoba* is an expanded listing of the libraries in our province (excluding school libraries — which are listed in the *Directory of School Media Personnel* issued by School Library Services, Manitoba Education). This publication is based on data collected in the late part of 1983 and early 1984.

The directory has taken on a new format to make it easier to use. The entries are arranged in alphabetical order and coded in the right margin to indicate the type of library (please see page iv for coding structure). The index to the Directory includes subject, type, language and geographical entries. The entries are as complete as the information submitted by each library. In most cases, the entry gives the name of the library, its address, telephone number, telex or envoy number (if any), the person in charge, collection statistics, and whether or not the library participates in interlibrary loan. It also indicates if the collection is catalogued, language holdings, special collections, population served and year founded.
